BIZTECH HEALTHCARE SOLUTIONS, INC. AND INTRANEXUS ANNOUNCE JOINT OEM AGREEMENT

Virginia Beach, VA: IntraNexus, Inc. (www.intranexus.com), manufacturer of the SAPPHIRE® Web-based healthcare information system (HIS), and BizTech Healthcare Solutions, Inc. (www.forbiztechhealth.com), the award-winning healthcare solutions integrator and developer of the ProMed Series of Revenue Cycle Solutions, announce the establishment of an OEM Agreement where-by IntraNexus will OEM and integrate the ProMed Series of Healthcare Solutions including ProMed DM (Document Management), ProMed Scanning, HIM Coding/Charge Entry, ProMed Chart Management/Deficiency, and ProMed Workflow into its SAPPHIRE line of healthcare information solutions, including its Clinical Information System, Pharmacy and Medication Management Component, Patient Access & Financial Management System and Long-Term Care Information System.

“We are excited to be able to offer our clients a cost-effective and proven way to manage their revenue cycle and clinical information. We feel confident that our existing customer base as well as all of our new clients will be very impressed with the functionality of SAPPHIRE DM,” said M. J. Darling, President and

COO of IntraNexus. “As a result of this agreement, all healthcare documentation can be managed within the SAPPHIRE suite.”

“We are enthused about this relationship, the synergies between IntraNexus and BizTech, and most importantly the resulting benefits to the IntraNexus user community”, says Doane Hadley, President, BizTech Healthcare Solutions, Inc. “The interoperability and flexibility of the products enable the release of several new modules, along with the strong foundation to provide future modules”.

IntraNexus was established in 1992. Since that time they have remained dedicated to improving efficiencies in healthcare through technology. The latest innovation, SAPPHIRE Web utilizes cutting edge technology that allows access from wherever you need it. Here. There. Anywhere. This high-quality, cost-effective solution has positioned IntraNexus as a leader in development, implementation and support of the next major healthcare information system, SAPPHIRE.

Recognizing the need for flexible and comprehensive applications, IntraNexus developed SAPPHIRE Web, the next generation, web-based HIS system. Together, the SAPPHIRE Server and SAPPHIRE Web solutions can support your patient access, revenue cycle, and advanced clinical needs - no matter how large or small your organization may be.
