MICROSOFT SELECTS BIZTECH SOLUTIONS, INC. AS ISV MANAGED PARTNER

Freehold, New Jersey, October 10, 2007: BizTech Solutions, Inc., (www.forbiztech.com), a leading provider of Work Process Automation and Web Business Solutions, announced today that it has been selected by Microsoft as a High Potential Managed Independent Software Vendor (ISV) Partner in the U.S. Achieving this status demonstrates Microsoft's recognition of BizTech's experience and commitment in supporting products and developing SharePoint and .NET solutions that enable companies to improve their business processes.

Microsoft High Potential Managed ISV Partners are chosen based on strict selection criteria including revenue growth and an established track record of success working closely with Microsoft. Through this program, Microsoft has devoted key field resources, including a Microsoft architect evangelist and a partner account manager, to help accelerate the adoption of BizTech's integrated solutions in the marketplace and achieve joint technical, product sales and marketing goals. The two companies will also collaborate on joint marketing initiatives and enterprise sales programs.

The ISV Managed Partner status is further enhanced by BizTech's annual re-certification as a Microsoft Gold Certified Partner. Beginning in 2002, BizTech has worked to achieve specific Microsoft competencies by developing, implementing and supporting a minimum of three successful solutions each calendar year, for which clients have provided references and verification to Microsoft. Today, BizTech holds Microsoft Competencies in the following:

- Information Worker Solutions
- Custom Development Solutions
- Data Management Solutions
- Networking Infrastructure Solutions
- Advanced Infrastructure Solutions
- Business Process and Integration Solutions
- Microsoft Business Solutions, specializing in the Microsoft Dynamics CRM and SharePoint Products

In addition, BizTech holds MCSA, MCSD, and MCSE certifications, and is a Microsoft Web Application Development Specialist, having demonstrated excellence in developing applications that operate over the Internet, Extranets, and Intranets.

“BizTech is honored that Microsoft has recognized us for our extensive work with SharePoint and .NET development. This status enables us to work more closely with Microsoft to provide support and solutions to our BizTech Solutions and BizTech Healthcare Solutions clients,” says Doane Hadley, President, BizTech Solutions, Inc.

BizTech Solutions, Inc., a New Jersey based Corporation, is a single source supplier of enterprise products for automation, workflow, document management, capture solutions and records management. The Company provides innovative solutions to reduce operating costs and increase cash flow, focusing first on understanding the business requirements, and then applying technology where appropriate to provide competitive yet differentiating solutions for the client.
